

The public comment period on the Donlin Gold project has been extended.
Use this postcard to comment.

Please send your postcard to the US Army Corps of Engineers with postmark before the **May 31, 2016** deadline.

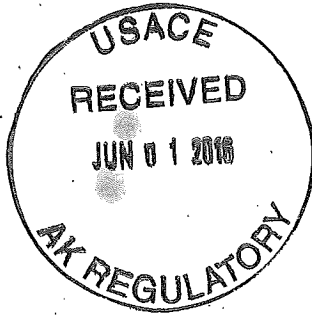

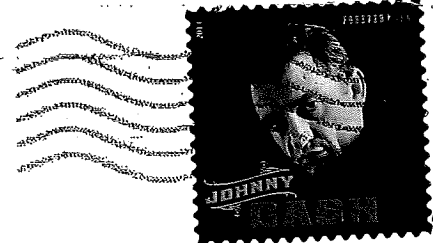

All the world will
would is not wrong
can't is there is
pollution & land
damage. Donlin must
be kept under
constant vigil
control to ensure
environmental compliance
and if it can't it
their profit margin
will drop.

Mr. Paul C. Bentler
