Re: Employment for Calista Shareholders

Dear Mr. Gordon:

If Donlin Creek becomes a mine, it will create thousands of jobs for the shareholders in our region. I have been employed with Calista Corporation for over 30 years. I remember when Donlin Creek was being constructed and in the first stage of exploration, a lot of Calista shareholders from the Calista and other ANSCA villages were employed by Donlin Gold. Unemployment in the Calista region is high and price of everything is very expensive, if Donlin becomes a mine it will give families and youth the choice to learn different types of jobs and skills.

I remember when Alyeska was being constructed, there was concerns about subsistence that may get harmed by the oil, but today the animals, berries and plants are still gathered for subsistence.

I strongly support Donlin Gold moving forward, because jobs at the mine will allow our shareholders financially and also be able to afford subsistence, not only Calista other ANSCA shareholders will benefit from the project.

I support Alternative 2, the project as it is proposed.

Frieda Seebold  
Anchorage/Mekoryuk
