

The public comment period on the Donlin Gold project has been extended.  
Use this postcard to comment.

Please send your postcard to the US Army Corps of Engineers with postmark before the **May 31, 2016** deadline.

Being an original shareholder from both  
The Calista Corporation and The Kuskokwim  
Corporation with strong family ties in both  
Crooked Creek AK & Georgetown AK. My main  
concern would that the Donlin Gold Project  
not put the subsistence way of life in  
jeopardy, as long as I can have some  
assurance, I believe we all can benefit  
and still preserve our traditions/way  
of life. Thanks for your time and  
consideration.

Sincerely,  
John Edison Jr.
