

The public comment period on the Donlin Gold project has been extended.  
Use this postcard to comment.

Please send your postcard to the US Army Corps of Engineers with postmark before the **May 31, 2016** deadline.

*If is our equipment that provides jobs for our people in Colista Region. For many years now since commercial fishing has depleted, jobs in villages are scarce. At one time, canneries in Naknek would provide summer income. Those have also depleted too. Along with lower pay, Asians and foreigners have claimed those jobs now!*  
*My applouse to Donlin Gold mine project for providing training and jobs to our people in Colista villages. Guides them pride and hope for their future. Thank you!*

*Sincerely*

*Lucy Knoll*
