Greetings U.S. Army Corps of Engineers.

This Martin Williams from Kwethluk Alaska 18 miles up river from Bethel Alaska.

I worked up at Denlin back in 2005 - 2007, I enjoyed working up there it was nice clean and safe place to work during my time working up at Denlin. I worked as a Core driller assistance and it helped me with my bills. I hope in the near future they open the mine I want to work for Denlin again. With the new technology way to mine is safe and if we work as a team and work safe, the mine can make it, we have good workers in our world.

Thanks,
Martin Williams
